

Required Training Courses

1) Responsible Conduct of Research

2a) Working with Large Animals
or
2b) Working with Small Animals

Successful completion of these 2 courses allows PIs access to ARO for IACUC protocol submission

EH&S
Required Training

1) [Chemical Hygiene](#)
2) [Enrollment in the Animal Exposure Surveillance Program \(AESP\)](#)

EH&S and Protocol-specific courses must be completed prior to protocol approval

For example:

Examples of Protocol-specific courses

Species-specific Training
Use of Controlled Substances
[Bloodborne Pathogens](#)

Small animal training is required for working with frogs AND the amphibian specific training is required as well.
